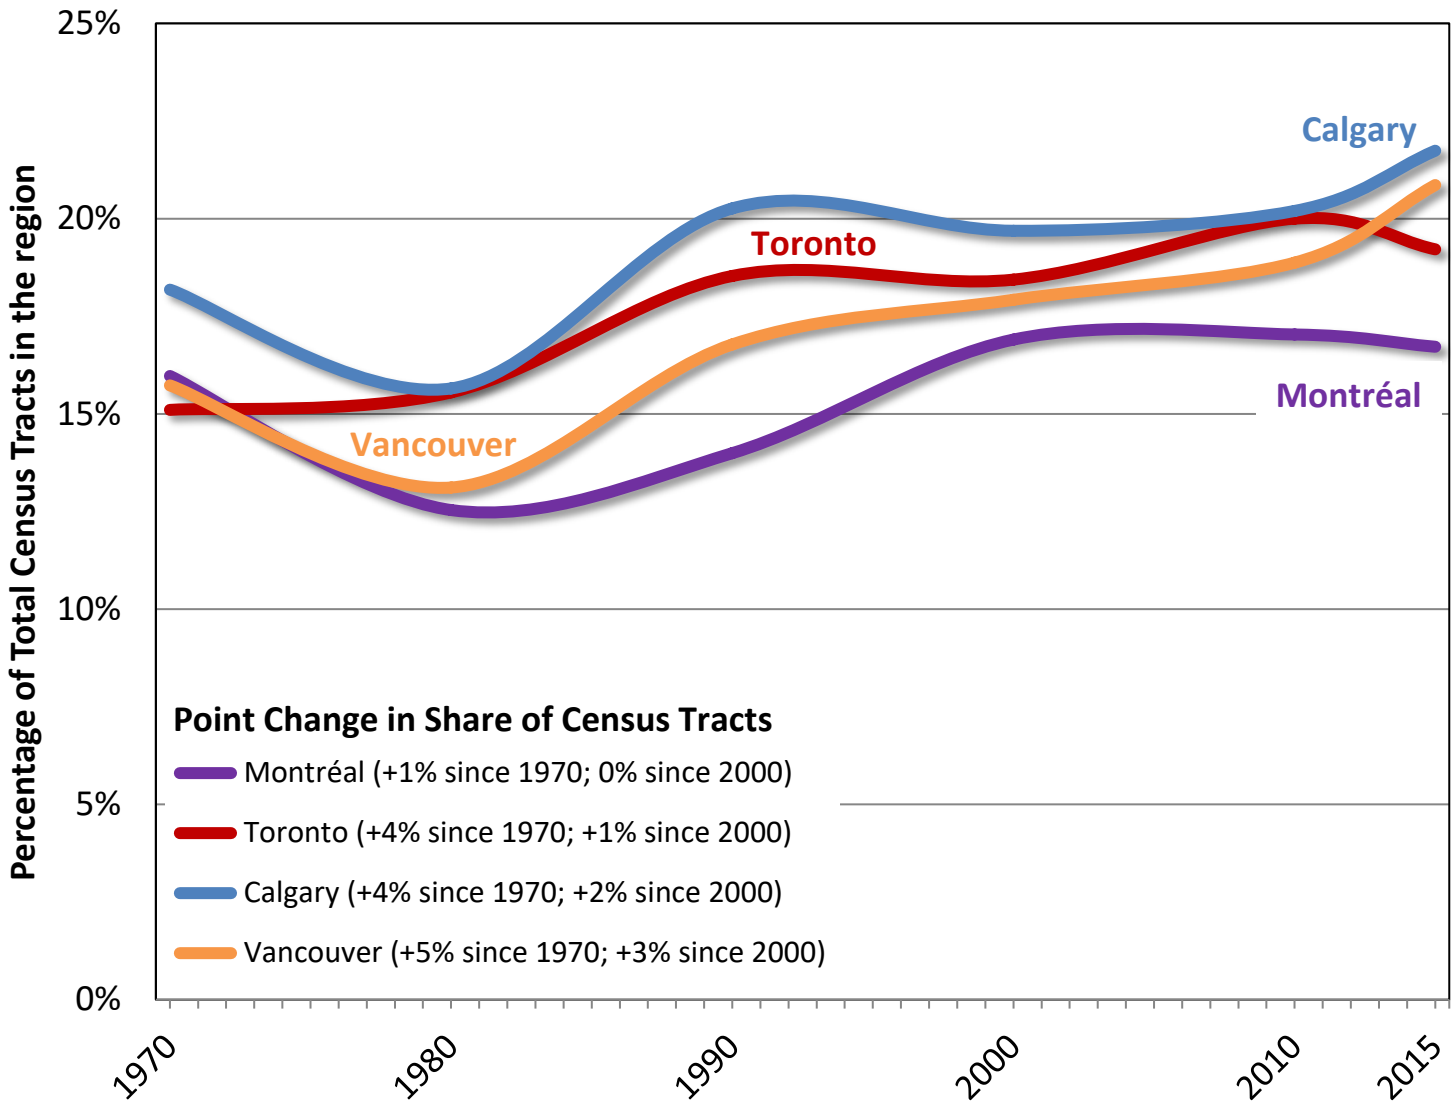
High & Very High Income Neighbourhoods
Four Census Metropolitan Areas, 1970–2015



High & very high income neighbourhoods are those census tracts which had an average individual income more than 20% above the specific CMA average income.

Notes: Calculated from census tract average individual income from all sources, before-tax. Income 1970–2000 and 2015 is from the Census. Income for 2010 is Canada Revenue Agency T1FF taxfiler data.
